It was argued that if this ball, fired at a distance of six feet, did not have force chough to pass through the double folds of the sleeve, perhaps the president's wound was not as serious as had at first been supposed. The other cartidges of this pustol have since been examined, and similar cartridges. It is an old story. General Rosseau was for many years an Indianian, and at one time a member of the legislature. He was a brilliant man, of spiendid physique and bearing. It has been said that he was the most magnificent looking officer in the service. To such a man the future seemed ever bright. tridges of this pastol have since been examined, and similar cartridges. It is found that although the bore is large, there is the smallest possible quantity of powder in the cartridge. The cartridge itself is very formidable look.

So the state of this pastol have since been examined, and similar cartridges. It was easy for him to achieve what less gifted men labored in vain to accomplish. And yet he could not accomplish. And yet he could not save his boy from the life of a tramp and a death in the poor-house. It was in Vosseyangen. He has married a tridge itself is very formidable looking, but, in fact, the supply of powder is found to be utterly inadequate to force the ball through any great substance.
